Health is an important aspect of my daily life. I am conscious about my health every day and it is my goal to be as healthy as possible. I strive towards having a healthy body, as well as a healthy mind day to day. To me, health mostly means exercising daily and eating at least three balanced, nutritious meals per day.

Exercising is a big part of my daily routine. I swim competitively for two hours a day. Exercising is a great way for me to keep a healthy mind and body. I burn calories, become stronger, and stay fit, all through exercise. I have little to no stress on a daily basis and I am able to sleep better at night. My focus and ability to learn improves greatly.

I make sure to replenish my body with nutritious foods such as a heart healthy meal. My diet is balanced, with fruits, vegetables, carbohydrates, proteins, and healthy fats. Water is just as important as food. I have always underestimated the importance of water, but I have realized that drinking eight cups of water each day is necessary. Exercising, eating well, and keeping a strong mind, allows me to stay healthy.
Health means staying fit and eating healthy. One thing that is important to do for your health is exercising. You should exercise for at least one hour a day. You should stop eating junk food and start eating healthy. You can eat fruits and vegetables such as apples or corns. I’m not saying not to eat junk food but to cut it down to a small amount. Another way to stay healthy is playing outside and getting fresh air. You should get out of the house and have fun. People don’t do their exercise because of electronics. Many people stare at the screen all day and do not get the right amount of exercise. Staring at the screen for too long could cause damage to your eyes. It is not worth risking your eyes for. Plus, breathing the fresh air and being out in the nature is better for you and your immune system. Did you know that trees and other plants give you oxygen? Without them you would not have any air to breathe. Plants make the world healthier place because plants can be used as medicine to help others. If a single plant can help so can I.

Humans need good health to live happy lives. Good food is needed for good health. If you eat fruits, vegetables, and drink water you will be healthy. Candy and junk food are very addicting and not healthy.
Taking care of your teeth is also important otherwise they will rot. Your teeth are needed to grind food and make it easy to digest.
Exercise makes you healthy and your heart and muscles very strong. A good form of exercising is playing outside with friends. Spending too much time on your computer makes your brain and eye sight get tired. Getting enough sleep is very important for good health and makes you better at what you are doing at school. Sleeping enough helps you focus and be less cranky.
Talking with others can help you express your feelings and what you want changed about you life or theirs and how you want them to treat you. Keeping in touch with others is important so you don't get lonely. Helping others is also important as you feel happy and when you are happy it makes your brain healthy and it makes your life happy. This is what health means to me.

Exceptions for Sensitive Locations

**Special exceptions for sensitive locations**
Actions may occur at these locations in special circumstances including:
- someone who poses an imminent threat, such as a national security risk
- immediate pursuit of a felon or person who poses danger to the public
- risk of destruction of property

**ICE Officers’ Conduct in Exceptional Circumstances**
If actions may occur at these locations in special circumstances, ICE officers follow these guidelines:
- Officers must have obtained high-level ICE approval
- Officers must make substantial efforts to avoid alarming the community
- Officers must be discrete and limit their time at the sensitive location

**Courthouses**
Courthouses are not sensitive locations, which means ICE can approach you there.

However, on Jan. 10, 2018, DHS announced that it will only approach specific targeted immigrants with criminal backgrounds, removal orders, or illegal re-entries.

ICE will not arrest other immigrants present at the courthouse unless they pose a threat to the public or try to stop ICE from arresting someone else.

source: cliniclegal.org
SB 54 ensures that no state or local resources are diverted to fuel an attempt by the federal government to carry out mass deportations and that our schools, our hospitals, and our courthouses are safe spaces for everyone in our community.
What is a Sanctuary State?
- Sanctuary counties/cities/states aim not to use local resources to enforce federal immigration laws.
- Police and sheriffs:
  - Cannot ask about someone's immigration status.
  - Cannot arrest someone only for having a deportation order or for most other immigration violations.
  - Cannot share your personal information, like your home address, with ICE or Border Patrol, unless it’s publicly available.
- This does not mean ICE is not present in any way.

Deferred Action for Childhood Arrivals (DACA)

- On September 5, 2017 the Trump Administration cancelled DACA.
- On January 9, 2018 a federal judge in San Francisco ordered USCIS to resume accepting DACA renewal applications from individuals who were originally granted DACA.
- Initial DACA applications are still not being accepted.
- At this point in time, advanced parole for DACA beneficiaries will no longer be accepted.
Temporary Protective Status (TPS)

- TPS Honduras has been automatically **extended** for six months through July 5, 2018. It is unclear whether TPS for Honduras will continue to be extended beyond July 5, 2018.
- TPS for Syria has been **extended** for 18 months through Sept. 30, 2019.
- TPS has been **terminated** for Nicaragua. DHS has given TPS holders from Nicaragua an additional 12 months of TPS status (January 5, 2019) and has announced they do not plan to extend or renew TPS for Nicaraguans past that date.
- TPS has been **terminated** for El Salvador. DHS has extended TPS for El Salvador for a final 18 month period (until September 9, 2019) and has not indicated that they plan to extend or renew TPS for El Salvador past that date.
- TPS has been **terminated** for Haiti. DHS has given TPS holders from Haiti an additional 18 months of TPS status (until July 22, 2019) and it is unlikely that TPS for Haiti will be extended past that date.

SUNNYVALE HOMELESS SHELTER
TO STAY OPEN YEAR-ROUND

San Jose – The Santa Clara County Board of Supervisors today voted unanimously to establish the County’s only year-round shelter outside of San Jose. Proposed by Board President Joe Simitian and Supervisor Dave Cortese, the Board’s action extends operations at the Sunnyvale shelter from six months to year-round on a pilot basis, with a report back in December so the Board can decide whether to make the change permanent.

Simitian, who represents much of the North County and West Valley, has spearheaded the effort to increase homeless services in those areas since 2014. “Recent surveys have shown us that the homeless count is up in the North County, and the level of use the existing shelter in Sunnyvale is getting shows there’s demand,” said Simitian. “I’m hopeful that having a permanent, year-round shelter in the North County will help get some of these folks off the streets and back onto their feet.”

Said Supervisor Cortese, “Having a secure place to sleep at night, storage for belongings and a sense of community and hope are elements we’d like to see in all temporary housing. The Sunnyvale shelter provides these and more and is ideal for a year-round pilot program.”

The Sunnyvale shelter is the result of a collaboration between Santa Clara County and the non-profit organization HomeFirst, which runs daily operations at the shelter. It provides beds, twice daily meals, and a variety of supportive services.

Originally established as a temporary cold weather shelter operating for four months a year, the Sunnyvale shelter was extended to a six-month shelter by the Board last year, and capacity was increased by 15 (from 125 to 140, with a goal of eventually serving 175 clients). Today’s action establishes it as the County’s only year-round shelter outside of San Jose.
